## Web-Based Speech Therapy

888-880-9567

[www.inspeech.net](http://www.inspeech.net)

**InSpeech Direct provides an alternative for your Speech Therapy services. We make speech language services accessible to any child anywhere. Whether you are a public, charter, virtual, or home school, you now have the unique opportunity to bring excellence in speech and language therapy to your children.**

*The information below is a brief outline of what to expect when you subscribe to InSpeech Direct web-based speech and language therapy programs:*

- An initial meeting with an InSpeech Direct speech therapist will be arranged to assess the needs of your school and the needs of your children. We will get to know your staff and train your teachers and parents alike.
- We provide the necessary equipment and therapy materials. Our setup service for the web-based therapy program is at a minimal cost and is sensitive to your needs.
- Web-based therapy allows services to be provided to your children. We engage your students in curriculum and where necessary, IEP based activities. We maximize the results of your children's therapy sessions.
- Evaluations are comprehensive, conforming to any IDEA, Department of Education, or your specifically requested format.
- Our speech therapists are experts in creating IEP programs, maintaining student records, and reports that conform to your needs.
- We create a computer e-file for each child. The file is comprehensive and includes evaluations, progress reports, and therapy notes.
- InSpeech Direct is committed to integrating teachers, parents, and para-professionals involved with each child as part of our service to you.

**Together we will open the door to your children's success. Let us show you how.**

**Call Diana Galis at InSpeech Direct for more information.**
